I am a recent Computer Science graduate from the University of Florida with a GPA of 3.73. I am proficient with technologies and programming languages like Java, JavaScript, PHP, Python and C# and have relevant work experience of over 3 years. In my time as a student at University of Florida, I have taken Computer Science fundamental courses related to Algorithms, Data Structures, Programming Language Principles and Database Management Systems. I am currently looking for software and web development roles that would help me face challenging situations and grow as a problem solver. I am hardworking and determined to be good at what I do.
